

Water Treatment Facility

Breckenridge, Minnesota
UEI No. 16.01800

ADDENDUM NO. 2

Date Issued: August 3, 2017

Bid Date: August 7, 2017 – 11:00 a.m.

To All Plan Holders:

THE BIDDER SHALL ACKNOWLEDGE RECEIPT OF ALL ADDENDA IN THE BID. FAILURE TO DO SO MAY SUBJECT BIDDER TO DISQUALIFICATION. THIS ADDENDUM FORMS PART OF THE BIDDING SPECIFICATION AND MODIFIES IT AS FOLLOWS:

Project Manual:

A. Section 00 26 00

The manufacturers and products, which are listed in the following texts, are approved for bidding. Final acceptance is contingent upon receipt and approval of final shop drawings. Manufacturer shall conform to all warranties, performances, size, etc., as the item specified. The burden of proof of the merit of the proposed substitution is upon the proposer. Those items not specifically listed by addendum shall not be approved for bidding.

<u>SECTION</u>	<u>DESCRIPTION</u>	<u>MANUFACTURER</u>
08 36 13	Sectional Doors	Midland Garage Door (3" Energy Saver)
12 35 53	Metal Laboratory Casework	Mott Manufacturing
23 34 23	Power Ventilators	Acme
23 37 00	Louvers	Nailor
23 33 00	Control Dampers	Nailor
23 63 13	Air Cooled Condensing Units	Daikin
23 81 26	Split System Air Conditioners	Daikin
23 82 19	Fan Coil Units	Williams
23 82 16	Electric Duct Heater	Neptronic
23 55 00	Hydronic Unit Heaters	Sigma Products

B. Section 00 45 46

1. **REPLACE** Federal Wage Rate determinations included in this section with the Federal Wage Rates attached to this Addendum.

C. Section 07 53 00

1. **REMOVE** Part 2 Products, Section F. SKYLIGHT SYSTEM and in Part 3 Execution, Section F. SKYLIGHT INSTALLATION in their entirety.

D. Section 22 06 00

1. In Item 1.01, **REVISE** paragraph D. as follows:

- D. If the Emergency Generator Alternate is accepted, arrange with gas utility company, Great Plains Natural Gas Company, and coordinate the installation of a new natural gas service, meter and regulator. Gas service, meter and regulator will be furnished by Great Plains. City of Breckenridge will be responsible for costs associated with the gas meter and service installation.

Great Plains contact is Jeremy Fischer. 218-739-6605. jeremy.fischer@mdu.com

E. Section 26 21 00

1. 2.3 A. **CHANGE** to read: "Contractor shall be responsible for service entrance conductors, meter socket, and metering CT's. Utility company shall be responsible for providing meter."

F. Section 26 51 00

1. 2.2 **ADD** D. "Bidders shall have the option of substituting LED-type lamps and luminaires for all lamps and luminaires in these plans and specifications, if they provide an equal or greater lighting level to that provided by the specified lamps and luminaires. The party purchasing the lamps and luminaires shall have the right to any initial rebates available for LED installation."

G. Section 26 56 00

1. 2.2 **ADD** J. "Bidders shall have the option of substituting LED-type lamps and luminaires for all lamps and luminaires in these plans and specifications, if they provide an equal or greater lighting level to that provided by the specified lamps and luminaires. The party purchasing the lamps and luminaires shall have the right to any initial rebates available for LED installation."

H. Section 33 82 63.16

1. 2.4 C. **CHANGE** to read: "SCADA HMI Software: System Supplier shall provide for the desktop computer HMI Software including all documentation and licenses. The SCADA software shall be licensed using software license files that can easily be restored to the system in case of hard drive failure. The software shall be Windows-based. SCADA Software shall be Rockwell Software FactoryTalk View or approved equal. The software shall include a license for a mobile tablet described above if such a license is needed for the tablet to provide SCADA control."
2. 3.2 **ADD** H.
 1. Owner's existing radio system includes a master radio at the existing water treatment plant, and remote radios at the two wells, seven lift stations, and an alarm panel at the police department. The new radio at the new water plant will be an additional remote directed toward the existing water plant.
 2. The existing water plant has an Allen Bradley SLC 505 connected to the master radio which polls the existing remote sites. It is intended that this PLC shall remain as the master for the radio network upon completion of this project, and that all existing logic continue as presently configured.
 3. System Integrator shall use the Ethernet radio system to retrieve alarms from the various remote sites via the existing SLC 505 and develop alarm screens for these sites similar to the alarms provided in the existing water plant HMI. Existing screens typically consist of approximately 10 discrete alarms per site, and two analog trends per site. Runtime totalization of pumps is also provided on the HMI screens. PLC logic needed to provide these functions already exists in the SLC 505, the integrator must only provide new HMI screens.
 4. The existing water plant alarms provide a single alarm point to the police department via radio. The system integrator shall provide similar functionality at the new water plant. In addition, the integrator shall provide an HMI screen which allows the operator to choose the water plant alarms which activate the police department alarm.
 5. The existing water plant has an Omron PLC which is wired to the SLC 505 PLC. The Omron PLC will be powered down as part of this project. Existing I/O which interfaces between the Omron PLC and SLC 505 PLC shall be removed from the SLC 505 logic, but if necessary the logic shall be modified to utilize signals from the new water plant. For example, where the existing water plant uses I/O to call for wells to run, this logic shall be modified in the SLC 505 to accept a request from the new water plant.
 6. The existing water plant's Omron PLC interfaces with a pressure transducer at the output of the plant. A new analog input card shall be added to the SLC505 to transfer this signal

from the Omron PLC to the SLC 505. This signal will be monitored to provide the water tower level, which is adjacent to the existing water plant.

I. Section 40 63 43

1. 3.5 A. **CHANGE** to read: "All required PLC and HMI programming for Control Panels furnished by the Systems Integrator as specified in Section 33 82 63.16."

J. Section 40 90 00

1. 2.5 B. **CHANGE** to read: "Remote mounted alarm horn shall be furnished and installed in the filter area. Contractor to coordinate the location with the Owner."

K. Section 40 91 00

1. 2.5 A.1 **ADD** Crispin Valve RF ASR Series as an approved manufacturer.
2. 2.5 C.1 **ADD** Crispin Valve RF Series as an approved manufacturer.
3. 2.7 A.1 **ADD** Crispin Valve DL Series as an approved manufacturer.
4. 2.8 A.1 **ADD** Crispin Valve as an approved manufacturer.

L. Section 46 31 43

1. 1.3, C, 2. **CHANGE** 14,000 lb Storage unit to 14 Ton to match 2.2, A, 9, a.

M. Section 46 33 66

1. 2.1 and 2.2 **DELETE** the schedule in these sections and refer to the Schedule in 3.3B for correct pump listing.

Plans:

A. Plan Sheet D3.03.

1. The scale for drawing 1/D3.03 and 2/D3.03 is 1/4" per foot and not 1/2" per foot noted.
2. The backwash waste pipe was set up above the filter influent to increase the backwash storage volume. The backwash pipe is sloped to the reclamation tank to handle the backwash rate. Head loss over the trough will push water into the pipe. The manufactures can increase the trough height if they choose to provide additional freeboard and adjust the backwash concrete trough height and filter wall the same height. A written clarification should be provided to bidders.

B. Plan Sheet D3.02, D3.03 and S3.01.

1. The flume height should be raised to a filter floor elevation of 104' 10" and not the 103' shown on the structural sheets. Contractor shall adjust the depth of the Geoform accordingly. The filter effluent piping, air scour, and any manufacture supplied items to complete air sour header and backwash supply velocity will have enough room. This height adjustment will allow manufactures to attach velocity control to the backwash supply/filter effluent wall pipe.

C. Plan Sheet D3.02, D3.03, and D3.04

1. D3.02, D3.03, Equipment Key 7,8,9; and D3.04, Equipment Key 2. The air piping for the filter air scour wash. **CHANGE FROM** 4-inch and 8-inch previously shown to 6-inch. This size will limit the velocity to a recommended 57 fps.

D. Plan Sheet A6.01.

1. At the Door and Frame Schedule **ADD** the follow remarks to doors 102 and 103: "Provide Electrified lever trim (Fail Secure) and a power supply as required. Egress from the building will always be unlocked. Verify compatibility with keyless entry system, see electrical." At the doors 102 and 103 **REPLACE** "99-L" with "E-99-L".

E. Plan Sheet S0.01

1. Under "Concrete Notes", note #2 the 28 Day Compressive strength values for all concrete

components shall be changed to read **5,000 psi**.

E. Plan Sheet M7.10

1. In the Motorized Damper Schedule, revise the actuator type for dampers MD-6, 7 & 8 to be NEMA-4x enclosures.

F. Plan Sheet No. E2.09

1. Revise utility feed to read "3Ø4W".

G. Plan Sheet No. E6.01

1. Add note #9 "Well is 340 feet deep".

H. Plan Sheet No. E6.02

1. Add note #9 "Well is 300 feet deep".

END OF ADDENDUM NO. 2

Respectfully Submitted,
Brian L. Hiles, PE

A DIVISION OF ACE SUPPLY

Date: July 30, 2017

To: Karges-Faulconbridge, Inc.
Attn: Mr. Thomas Wentz

Regarding: Request for Prior Approval
Project: Water Treatment Facility (Breckenridge, MN)
Bid Date of: 8/7/17

Mr. Wentz:

In strict accordance with the plans and specification, we respectfully request permission to bid the following equipment:

Section 23 63 13	Air Cooled Condensing Units	By Daikin
Section 23 81 26	Split System Air Conditioners	By Daikin
Section 23 82 19	Fan Coil Units	By Williams

Your favorable consideration regarding the above request would be appreciated.

Sincerely,

Charlie Vollhaber

County: Wilkin County in Minnesota.

BUILDING CONSTRUCTION PROJECTS (does not include single family homes or apartments up to and including 4 stories).

Note: Under Executive Order (EO) 13658, an hourly minimum wage of \$10.20 for calendar year 2017 applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2015. If this contract is covered by the EO, the contractor must pay all workers in any classification listed on this wage determination at least \$10.20 (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the contract in calendar year 2017. The EO minimum wage rate will be adjusted annually. Additional information on contractor requirements and worker protections under the EO is available at www.dol.gov/whd/govcontracts.

=====

Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is a victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at www.dol.gov/whd/govcontracts.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of "identifiers" that indicate whether the particular rate is a union rate (current union negotiated rate for local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).

Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than "SU" or

"UAVG" denotes that the union classification and rate were prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

Survey Rate Identifiers

Classifications listed under the "SU" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on

- a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
 Wage and Hour Division
 U.S. Department of Labor
 200 Constitution Avenue, N.W.
 Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
 U.S. Department of Labor
 200 Constitution Avenue, N.W.
 Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
 U.S. Department of Labor
 200 Constitution Avenue, N.W.
 Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

=====

END OF GENERAL DECISION

=====

Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is a victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at www.dol.gov/whd/govcontracts.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of "identifiers" that indicate whether the particular rate is a union rate (current union negotiated rate for local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).

Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than "SU" or "UAVG" denotes that the union classification and rate were prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

Survey Rate Identifiers

Classifications listed under the "SU" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average

rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
 Wage and Hour Division
 U.S. Department of Labor
 200 Constitution Avenue, N.W.
 Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

=====

END OF GENERAL DECISION

General Decision Number: MN170004 06/23/2017 MN4

Superseded General Decision Number: MN20160004

State: Minnesota

Construction Type: Highway

Counties: Becker, Big Stone, Clay, Douglas, Grant, Mahnomen, Otter Tail, Pope, Stevens, Swift, Traverse and Wilkin Counties in Minnesota.

HIGHWAY CONSTRUCTION PROJECTS

Note: Under Executive Order (EO) 13658, an hourly minimum wage of \$10.20 for calendar year 2017 applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2015. If this contract is covered by the EO, the contractor must pay all workers in any classification listed on this wage determination at least \$10.20 (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the contract in calendar year 2017. The EO minimum wage rate will be adjusted annually. Additional information on contractor requirements and worker protections under the EO is available at www.dol.gov/whd/govcontracts.

TRUCK DRIVER CLASSIFICATIONS:

GROUP 1: Mechanic, Welder; Tractor Trailer; Truck hauling machinery including operation of hand and power operated winches.

GROUP 2: Four or more axle unit straight body truck.

GROUP 3: Bituminous Distributor driver; Bituminous Distributor (one person operation); Three Axle units.

GROUP 4: Bituminous Distributor Spray operator (rear and oiler); Dump Person; Greaser; Pilot Car; Rubber Tire self-propelled Packer under 8 tons; Two Axle unit; Slurry Operator; Tank Truck Tender (gas, road oil, water); Tractor under 50 hp.

WELDERS - Receive rate prescribed for craft performing operation to which welding is incidental.

=====
Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is a victim of, domestic

violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at www.dol.gov/whd/govcontracts.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of "identifiers" that indicate whether the particular rate is a union rate (current union negotiated rate for local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).

Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than "SU" or "UAVG" denotes that the union classification and rate were prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

Survey Rate Identifiers

Classifications listed under the "SU" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate

that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

=====

END OF GENERAL DECISION
